## Hello Blackness

Technical University of Denmark

Here is another frame style!

- You can set whatever font you like in the preamble. E.g.:

- `\usepackage{lmodern} % Latin Modern`
- `\usepackage{helvet} % Helvetica`
- `\usepackage{verdana} % Verdana`
- `\usepackage{newtx, newtxmath} % Times (text and math)`

- DTU recommends Verdana but this font type is not available by default on all operating systems:

- Windows: include the `verdana` package in the preamble and MiKTeX will do the rest;
- Linux and OS X: before including the `verdana` package in your preamble, run the `install_fonts.sh` script from our package.
